and a shuttle port. The main base that you came in through was only built about ten years ago. Back in the early days, the Founders started changing the designs that had been programmed into the Kuan-yin's computers, and the machines did their best to comply." She sighed. "And this is what it ended up like. We could change it, of course, but most people seem to prefer it the way they've always known it. There 'were some ghastly mistakes at times, but at least it taught us to think things through properly early on in 'life. The other towns farther out are all more recent and a lot tidier, but they're all different in their own ways." "Yesterday," Micky lied..required of a roommate..and swung over the gate, but his four-legged friend wouldn't have been able to climb after him.."They're priceless," Celia commented dryly from her chair. They had been, literally, but the irony was lost on Mrs. Crawford. Veronica caught Celia's eye with a warning look..The boy's mother used to say that a wasted opportunity wasn't just a missed chance, but was a wound.Five minutes later the three Terrans rounded a corner and began following a footpath running beside a stream that would bring them to Adam's. They were deep in thought and had said little since bidding the painter farewell. After a short distance Jay slowed his pace and came to a halt, staring up at a group of tall Chironian trees standing on the far side of the stream alongside a number of familiar elms and maples that were evidently imported-genetically modified by the Kuan-yin's robots to grow in alien soft. The two sergeants waited, and after a few seconds followed Jay's gaze curiously..Jean shook her head in protest. "But you can't . . . I won't go. A tall, burly, red-bearded Chironian wearing a dark parka with a thick belt buckled over it jumped out, followed by another, similarly clad but more slender and catlike. More figures became visible inside when the cabin light came on. Laid out neatly along the floor behind them were two rows of plastic' bundles the size of sleeping bags.."Ahem . . ." General Portney cleared his throat. "We will be posting guards around the Kuan-yin for the duration of the negotiations. I trust there will be no objections." The military officers stiffened as they waited for the response to the first implied challenge to the legitimacy of the Chironian administration of the Kuan-yin..and being rude to nuns..Helicopter rotors rattle the night again. The long day of rejection left her.question: "Were you?".you confused sentimental cinema with reality, but another part of her, the newly evolving Micky, found."So what about the nuts?" Jay asked. "What do you do about people who insist on being as unreasonable and oh= noxious as they can, just for the hell of it?". "Better go, thingy, better squiggle," Sinsemilla advised gleefully. "Here come bad-ass Lani, and dis here.No, pup, no, no! Out, pup, out!.It was the right thing to do. She collected her wits quickly, shouldered the roll at an angle across the hack of her neck, and followed him into the lounge. Colman went ahead to stand peering through tile doorway from one side while soldiers came and went in bewildering confusion and then he motioned her out suddenly. In a strangely dreamlike way she found herself being conveyed down. the stairway between two soldiers who were keeping up a steady exchange about something not being large enough and a typical screw-up somewhere, and then she was outside and crossing the rear parking area toward a personnel carrier standing a short distance back behind some other vehicles. Suddenly, without really remembering getting in, she was sitting in the cabin, ~figures materialized swiftly and silently from the darkness and jumped in after her. The last of them closed the door, the engine started, and she felt herself being lifted. Only then did she start shaking..Bernard's jaw dropped. "Stern?" he gasped, then looked down at Celia. "You did tell him?". "Well, Paul can't show his face outside. You heard what Fulmire said." Bernard replied. "So I guess I'll have to..".fate, the more tightly wound she seemed to become. The other two SD's relaxed a fraction. The corporal called up the duty l-g4nd signed his team off. "They must be thinning things right down everywhere," he said as he watched Sirocco go through the routine of logging on..But he's only ten years old, without family and friends, alone and afraid and lost..Unprepared for the girl's admission, Micky stumbled a few words further. The note read:.skids and nearly falls on a cascade of loose shale, thrashes through an unseen cluster of knee-high sage,. "That's my whole point," Bernard told them. "They're.Later. Tears are for later. Survival comes first. He can almost hear his mother's spirit urging him to.Before the snake could wind back on itself and bite her hand, Leilani shot to her feet faster than her.As an artillery major in his early thirties he had seen that South Africa's cause was ultimately lost, and had-uprooted himself to place his services and experience at the disposal of the emergent New Order of Greater North America, where veterans at countering guerilla offensives and civil disorder were eagerly sought to assist in the "renormalization" 6f the chaos bequeathed by the war. Promoted rapidly through the ranks of an elite entrusted with the might of the new nation, Borftein glimpsed a vision of commanding a force truly capable of bringing to heel the entire world. But the vision had been short-lived. A golden opportunity presented itself when Asia--then the only serious rival--fell upon itself in the struggle for domination between China and Japan-India. But the chance had slipped away while the politicians wavered, eventually to be lost forever with China's success and the subsequent consolidation

of the Eastern Asiatic Federation. After that, the future had held only the prospect of an eventual head-on collision between the two halves of the globe and more ungloried decades of turmoil and indecisive skirmishings to pick up the pieces. Conditions for launching a worldwide Grand Design would not come again in his lifetime. And so he had left to seek a more rewarding destiny with the Mayflower II. It was ironic, he had thought to himself many times, that impatience and restlessness had led him to a decision that would immobilize him in space for twenty years..Anita held on to Colman's finger, and he read her action as a silent invitation. He had slept with her a few times, many months ago now, and enjoyed it. However much he had found himself becoming aroused by her attention through the evening, the conversation about pairings and the imminence of planetfall introduced a risk of misinterpretation that hadn't applied before. Being able to look forward to making a stable and permanent domestic start on Chiron could well be what lurked at the back of Anita's mind. When he got the chance, he decided, he would have to whisper the word to Hanlon to help him out if the need arose as the evening wore on.
