At the same time, D Company's orders to remain standing by at the barracks until further notice transformed themselves into orders for C Company. Ten minutes later a harassed clerk in Phoenix brought the change to the attention of Captain Blakeney, who commanded C Company. Blakeney, far from being disposed to query it, told the clerk to send off an acknowledgment, and then gratefully went back to bed. Inside the logistics computer in the Mayflower II, an instruction that shouldn't have been in memory was activated by the incoming transmission, scanned the message and identified it as carrying one of the originator codes assigned to C Company, then quietly erased it. Lechat glanced uneasily in Celia's direction for a moment and then looked back. "Howard Kalens," he said in a lower voice. "Couldn't that have been a final warning? Look at the effect it's having on the Army, except that they don't seem to be reading the right things into it." He looked at Jay. "I can't see that they've got it all figured out. She shivered at the thought and got up from the sofa to find Bernard. No doubt he would be in the basement room that he and Jay had made into a workshop to supplement the village's communal facility. Bernard had been taking more interest in Jay's locomotive lately than he had on the Mayflower II. Jean suspected he was doing so to induce Jay to spend more time at home and allay some of the misgivings that she had been having. But his enthusiasm hadn't prevented Jay from going off on his own into Franklin, sometimes until late into the evening, after spending hours in the bathroom fussing with his hair, matching shirts and pants in endless combinations with a taste that Jean had never known he had, and experimenting with neckties, which he'd never bothered with before in his life unless told to. Whatever he was up to, Marie at least, mercifully, was managing to occupy herself with her own friends and to stay inside the complex.. "Never let him adopt you," Micky said. "Hey, don't get too excited about this," Colman cautioned. "I only said rd be interested in seeing it. The Army might have different ideas about me getting involved. Don't bet your life savings on it." "Believe in life after death?" "He wouldn't believe us." Lechat said bleakly. "It sounds like the first bluff anyone would try." Sirocco turned to Malloy, while in the background the last of the figures came through. "Okay, you know where to go. Hanlon should be there now with the others." Malloy nodded. "We'll make a soldier out of you yet," Sirocco said to Celia. "You're doing fine. Almost there now." Celia returned a thin smile but said nothing. He couldn't see any reason why travel shouldn't come free on Chiron, just like everything else, and wondered what kinds of connections could be made from Port Norday to the more remote reaches of the planet. The dum carried a one-third charge, and the dee carried none. Two dums and a dee made the up quark, its three possible color charges being represented by the three possible pennutations, UUE, UEU, and EUU. Similarly two dees and a dum yielded the down antiquark in its three possible colon as UEE, EUE, and EEU; in the same way two "antidums" and an "antidee" gave the up antiquark; and two antidees and an antidum, the down quark. Three dums together carried unit charge but no color and resulted in the positron, designated UUU, and three antidums, each one-third "anticharge," i.e., negative, made up the normal electron, UUU. Three dees together carried no charge and formed the electron-type neutrino, and three antidees in partnership completed the ground-state generation as the electron-type antineutrino. It followed that "antitweedles" didn't necessarily give an antiparticle, and tweedles didn't always make a particle. Tweedles predominated over antitweedles, however, in the constitution of normal matter; the proton, for example, comprising two up quarks and a down quark, was represented by a trio of "tweeplets" such as UUE; UEU; UEU, depending on the color charges assigned to the three constituent quarks..Geneva left the door half open behind her.
